WORK OF FIRE BUG GROWING RAPIDLY

Thirteen Fires in Ten Days Arouses Citizens of Covington, Kentucky.

Oil Soaked Waste Found In Barn May Lead to Arrest Of Incendiary.

(By Associated Press)
Cincinnati, O., January 18.—While residents of Central Covington, Kentucky, alarmed by the frequency of mysterious fires in the neighborhood were preparing to deal roughly with the "fire bug" believed to be responsible, the thirteenth fire within ten days broke out last night.

Deputy State Fire Marshal William Booth and detectives who are making an investigation, later discovered in a stable what they believe to be the base of supplies, including a large bucket filled with oil-soaked waste of the same type that has been found at the scene of many of the fires.

Many residents are thoroughly aroused and are carrying revolvers to guard against the incendiary, according to Fire Chief Edward Griffith, who sent out a warning Sunday to persons living in the vicinity to take precautions to guard against the danger. None of the fires so far has caused more than nominal damage.

Devoting Time to Personal Affairs

(By Associated Press)
Marion, Ohio, January 18.—President-elect Harding has completed his conferences here and will leave Marion late Thursday night for St. Augustine, Florida, where he will arrive Saturday.

A two week houseboat trip along the shores of Florida is to follow immediately his arrival in the south.

Virtually all of February he will live at a St. Augustine hotel.

Few visitors except personal friends are expected here during the remainder of the President-elect's stay.

Tangible evidence of the nearness of the departure of the Hardings was given to the people of Marion today when a moving van backed up before the Harding home and began carrying away furniture.

The house famous by its front porch is to be occupied by an acquaintance of the Hardings after March 4th.

EIGHT MEN HELD ON SUSPICION OF TOLEDO MURDER

(By Associated Press)
Toledo, O., January 18.—Eight men were being held by the police here today on suspicion of being the bandits who shot and killed A. E. Long and Louis Schroeder, New York Central detectives, shortly before noon yesterday in one of the most spectacular holdups in the history of Toledo.

After killing the two men, the bandits escaped with \$9,557, representing the railroad's Saturday and Sunday passenger receipts, which were being conveyed from the union station to a downtown bank.

Two of the men held have been positively identified as members of the bandit gang.

After killing the detectives, the bandits staged two more gun fights, one with a taxi driver, who emptied an automatic at them, and another with a policeman, who was hurrying to the scene of the holdup.

Royce Richardson, a negro, is one of the men held. The police refused to make public the names of the others. No confession has been obtained.

Near Riot Occurs When Auditor Replies to Charges of "Bolshevism"

(By Associated Press)
Columbus, January 18.—Charges of "bolshevism" and "anarchy" were exchanged between farm representatives and a Cleveland delegation of city tax payers during a stormy session before the State Tax Commission this afternoon, when a group of Cleveland people appeared to demand that the State Tax Commission carry out its original purpose of reappraising land values in sixty-one counties.

A near riot occurred when County Auditor John A. Zangerle, of Cleveland, in reply to charges of "bolshevik tendencies" in Cleveland, said he regarded the attack on the authority of the state commission to reappraise land, "just as bolshevistic in its tendencies as putting a torch to public buildings."

Farmer delegates from rural counties were on their feet in protest. They demanded that Zangerle be excluded from the hearing for his remarks.

More farmers opposing the reappraisal appeared before the commission today.

The "Corn Stalk" club representing rural members in the legislature, last night adopted a resolution opposing reappraisal of real estate, suggesting postponement of the reappraisal order for at least another year.

H. C. Whitney, Knox county, representing a wool producing district, said 95 percent of the wool was still in the farmers' hands and the price still declining. The wheat crop in the county, he said, was a failure.

JAPAN EVADES NAVAL SCHEME

Wants United States and England To Act Then Japs Will Think About It

Limitation of Naval Building Does Not Appeal to Okuma

(By Associated Press)
Tokio, Japan, January 17.—American proposals that Japan, Great Britain and the United States "take a naval holiday" is eloquent proof that despite the fabulous riches of America she wishes to curtail national expenditures and therefore the proposals are intended more to help America than to contribute to the peace of the world, said Marquis Okuma, former Japanese premier in an interview here today.

He asserted America should first consult Great Britain relative to the suggested suspension of naval programs.

"Only when an American-British agreement has been reached," he added, "can Japan be in a position to consider this proposition. Japan's naval program is fixed at the minimum necessary for national defense."

Five Youths Commit Daring Crime in Chicago Union Station.

(By Associated Press)
Chicago, January 18.—Five youthful bandits held up a United States mail truck at the union station early today, escaping in an automobile with twelve sacks of mail, ten of which contained registered mail.

Police say that the best information obtainable indicates the pouches contained part of a federal reserve bank money shipment, which was to have been placed on the train for St. Paul.

The bandits surprised three postal employees, forcing them at the point of guns back into the truck, while the bandits' car drew alongside and the twelve mail bags were transferred to it.

The robbery was accomplished in a few minutes. The regular registered mail bags were supposed to contain currency and bonds whose value has not been estimated.

The postal employees said the five men, none of whom appeared to be more than twenty years old, all wore black masks and carried out the robbery in such a short time that the attention of a watchman and others nearby was not attracted.

ANOTHER OFFICIAL LOSES SCALP

State Oil Inspector Resch Summarily Dismissed by Governor

New Governor Names Hillsboro Man to Succeed Resch

(By Associated Press)
Columbus, O., January 18.—For failure to comply with his order of yesterday to dispenze with the service of forty state oil inspectors, Governor Davis today summarily removed State Oil Inspector Chas. L. Resch and appointed William H. Walker, of Hillsboro, to the position.

The discharge of Resch was the immediate result of a public statement said to have been made by Resch in which he was quoted as saying he could not run the oil inspection department with four inspectors as directed by the Governor.

Resch was quoted as saying that he would not obey the order until he had seen the Governor. He tried several times to secure an audience with the Governor.

Governor Davis, commenting on the incident today, pointed out that he would tolerate no disobedience on the part of any state employee.

Appointment of Walker as state oil inspector was said to be only temporary and to enable the Governor to work out a plan of reorganizing the department.

It is expected that the work of the department will be merged with some other department.

JUDGE ALLEN IS JUDGE ADVOCATE AND LIEUT. COL.

Is Appointed by Adjutant General Florence And Post Is Important One.

Was Formerly Major In Guard and Regular Army With Two Years Overseas.

Judge Rell G. Allen is receiving congratulations over his appointment by Adjutant General George Florence to the position of Judge Advocate General of the Ohio National Guard with the rank of Lieutenant Colonel, and has already entered upon his new duties.

The appointment came wholly as a surprise and was due to Colonel Allen's marked ability in similar work while in the regular army overseas, in which work he spent part of the two years in France as Major of the Fourth Ohio Infantry, Rainbow Division.

Colonel Allen will have full charge of the legal end of the military law with reference to its application to members of the entire Ohio National Guard.

Only a portion of his time will be required in the discharge of his new duties, and it will not necessitate his removal from the city. It will not interfere with his work as probate judge during the remainder of his term.

Colonel Allen had not been associated with the military organization of the state since his honorable discharge from the service following his return from overseas.

FARM BUREAU TAKES ACTION

Petition to Abolish Offices of County and District Superintendents Presented.

Persons carrying a petition asking for the abolishment of the offices of superintendent of the county schools and district superintendents, appeared before the Fayette Farm Bureau Monday afternoon, and the proposal was discussed at some length.

When action was finally taken by the Bureau it was not to abolish the county superintendents of schools, but to abolish district superintendents and retain the county superintendents.

The attitude of the Bureau was that schools must have a definite head in order that something like a proper program may be carried out, and that the position of district superintendent was unnecessary and unwarranted expenditure of money.

The tickets have been placed on sale previous to the banquet in order to avoid congestion on the night of the banquet.

POINT TO PLANS TO CHANGE NAME BUT KEEP OFFICIAL

Some of the carriers of the petitions now being circulated in Fayette county, and which provide for a change in the school code to abolish County and District superintendents as now selected, are pointing to what they claim is an attempt to get around abolishment of district superintendents by having "assistant superintendents" named in stead of the district superintendents.

The bearers of the petitions cite the following excerpt from a Columbus paper mentioning the action taken at the meeting of school superintendents in Columbus a short time ago, and which says:

"What developed into, perhaps, the hottest scrimmage of the Ohio State Teachers Association meeting took place late Wednesday, when a resolution was introduced at the Rural and Village Superintendents Department session in the Chamber of Commerce, which in effect meant the changing of district superintendents to assistants to county superintendents throughout the state.

"It was urged that they be made as assistant county superintendents and elected by the county boards of education. The resolution was finally passed by a vote of 105 to 25. The department went on record as favoring 'any reasonable steps for making the county the school unit.

"Among other resolutions put across by the rural men, were the paying of the state superintendent and staff salaries that would be commensurate with their responsibilities; passage of a law requiring erection of teacherages, and the creation of an organization for properly administering county schools."

WILL REBUILD DEVALON ROAD AND CUT CURVE

Entire Road Is To Be Rebuilt By State And Made Four Feet Wider.

Present Material Only Four Inches Thick — Abolish Dangerous Curve.

Definite announcement is made that the Devalon road, five miles in length and connecting this city and Bloomingburg, is to be rebuilt during the present year, by the state of Ohio, and at no cost to Fayette county other than obtaining a small tract of land to eliminate the dangerous turn about midway between this city and Bloomingburg.

The road, the most of which was constructed by Shumway & Son, of Portsmouth, nine years ago, is to be torn up and entirely rebuilt with twelve inches of "metal" or material, as compared with some four inches of material at the present time.

The road is to be constructed four feet wider than at the present time, and the county commissioners have authorized the purchase of about one-half acre of land immediately east of the present roadway at the turn where the road intersects with the Eber road. This will be the only direct cost to Fayette county, the remainder of the work, which will include a concrete culvert to take the place of the iron bridge at the turn, being paid for by the state from the state fund for such purposes.

For years the maintenance cost of the Devalon road has been increasingly heavy because of the thin layer of metal originally placed upon the road, and the manner in which the road has withstood the wear and tear of traffic has been watched by highway officials generally. In the last two or three years, or since the advent of heavy trucks, it has been realized by engineers that the road could not long stand up under the traffic.

Some months ago the Fayette Auto Club took up the matter of abolishing the dangerous curve, which has been the scene of several bad accidents, and County Engineer Kennedy placed the condition of the road before the State Highway Commission and asked rebuilding of the road. After the matter of eliminating the curve had been taken up and worked out, the State Highway Department agreed to rebuild the road in a more modern way, with 12 inches of metal instead of a thin layer as originally used.

Last year the maintenance of the five miles cost the state some \$9,000 it is announced, and it was pointed out that the cost from year to year would increase and within a few years nothing would be left to show for the expenditure except a completely worn out road. Rebuilding will probably cost considerably over \$50,000.

The additional width of four feet will make the road ample in width, it being too narrow as its stands.

It is the intention of the State Highway Commission to begin rebuilding the road as speedily as possible when the spring weather comes and to complete it as soon thereafter as possible. It will be necessary to tear up the entire present roadbed in order that the foot of metal may be properly distributed.

PRODUCES BRICK FROM PLAIN STRAW

Paris — A French textile expert claims that he has invented a process for making bricks from compressed straw. He is searching for funds to prove that he is no idle dreamer and can relieve the present housing crisis by building houses.

He says owing to the slight weight of the material there is no need for deep foundations and the whole building can be completed in a month. It is affirmed that the straw preparation is not inflammable. The first house has already been built in Montargis.

Girls who can not sing the old songs would be loved better if they also declined to tackle the new ones.

DEMETRAL WILL MEET KOTSONAROS

Columbus, O., January 18.—About four years ago William Demetral, then heavyweight Greek champion defeated George Kotsonaros a corner of 170 rounds in two straight falls before Al Hart's wrestling club here in this city. The pair have never met since then but in the meanwhile Kotsonaros grew in strength and increased his skill. Now after much dickerling the pair have been matched before the same club for a go here on January 27 at the Chamber of Commerce, which will be to a finish. Kotsonaros and Demetral now weigh 190 each and the affair may be styled a title one for the light heavyweight championship of the Greek mat world of which the ponderous Jim Londas is the chief. Londas took the title from Demetral a few years since after the latter had held it 15 years.

Wrestling conducted along the cleanest lines has been started strongly here this winter. Kotsonaros has become a favorite with the university student wrestling squad and he is working out there. Every effort will be made to have Demetral now in training in Chicago finish his work at Rowser's gym in Newark the last few days before the match if possible.

NEW ENTERPRISES OF GREAT MOMENT ARE UNDER WAY

New York. — Sixteen exploration expeditions are now in progress or in contemplation after four years of inactivity in this line of scientific research due to the Great War. Most of these enterprises have been undertaken or projected since the armistice and they recall the fact that Mother Earth still has important biological, zoological, geological, ethnological and meteorological problems which are still unsolved.

One of the most important of these enterprises is the British Antarctic Expedition, headed by Commander John Lachlan Cope, F. R. G. S., formerly of the British navy. It is financed for \$750,000, includes five ships, 125 men, several airplanes and extensive wireless apparatus. The undertaking is to require five years and its objects are the circumnavigation of the Antarctic Sea, a dash to the South Pole, the locating of new whaling grounds, and the discovery of supposedly rich gold, silver, coal and ruby fields.

Captain Roald Amundsen, who discovered the South Pole in 1911, left Nome, Alaska, last August in an attempt to reach the North Pole. His ship, the Maud, had already spent 19 months in the Arctic, north of Asia and Europe, and has successfully made the Northeast passage. He expected the Maud to be locked in the icepack and to drift toward the Pole when the Arctic winter ended.

A CARD OF GREAT IMPORTANCE

Once each season it becomes our pleasant duty to announce to patrons of the Hartman Theater an unusual and wonderful treat which stands out prominently above all other shows of the theatrical year.

Such an event is now about to occur here, and owing to the experience of last season, we desire to serve ample warning to our patrons of an opportunity that should not be neglected.

Last season all known theatrical records in this city were shattered to smithereens by the world's most beautiful production, "Chu Chin Chow," presented here by F. Ray Comstock and Morris Gest.

Theatergoers need scarcely be reminded of the extraordinary demand for seats, of the terrific rush on the box office, of the packed houses and the thousands of would-be patrons who could not get near the box office in order to buy seats.

Nothing like the extraordinary success of "Chu Chin Chow" in this city last season has been known in a generation! It is a gigantic spectacle in 14 big scenes, employing more than 300 people.

Now we are proud and happy to announce that we have just contracted with Messrs. Comstock and Gest to bring "Chu Chin Chow" back for a return engagement, beginning Monday evening, January 31st.

Mail orders for all performances during the week of January 31st will now be received. Enclose self-addressed stamped envelope for return of tickets, and enclose proper remittance.

Business Honor

No right-thinking, justice-loving man, who understands and appreciates fully that the great structure of American business is builded upon honor, would advise any man in business not to live up to his contracts—not to meet, in spirit, every moral obligation and yet, at the same time, realizing all that and respecting fully that whole-some honor among business men, which must be observed. If our great business is to go forward, we are not going to join in the hue and cry of abuse that is now being shouted from the pages of the larger publications against the small business men—the retailers of the business world.

During all the long months of war time, pre-war times and for a while during the after war period too, these same larger publications were strangely silent. While the big business men treated their contracts with the smaller business men as mere "scraps of paper" to be observed or to be ignored as promise of profit dictated.

American business is now being subjected to the acid test—the test of contractual obligations. Can those big business men, who profited enormously by disregarding their contracts with the smaller merchants a few months ago, escape parting with some of their ill-gotten gains by appealing to the honor—the business honor—of the smaller merchants.

It is not the first acid test for American business, but it is the first for the smaller merchants. The big fellows, when the test was applied to them, "welshed" at the ratio of a thousand to one and showed the dishonest dross of the profiteer. Some of them assayed pure gold and lived up to their agreements and they, it is safe to assert, will not suffer now.

But the smaller dealers are not going to forget the men, among the wholesalers and jobbers, who failed when subjected to the acid test. Retailers and smaller dealers are not going to forget the men who, in times of stress, disregarded their contracts and squeezed the last penny from them on a rising market. They are not going to be tolled away from a purpose to recoup the damages they sustained in war and pre-war times by numerous verbal broadsides from that portion of the press which has just awakened to the importance of honor and contract observance among business men.

If the smaller American business men do not remember, now that it has come their turn, who was pure gold and who was dross, when the shoe was on the other foot, then we mistake the temper and the stamina of the smaller American business men.

Live up to every business obligation! Certainly with those dealers who observed, under test, the same rule of conduct, but with every man in the big business world who showed himself the cur under fire, now is the time for the smaller business man to collect a portion of that out of which he has been robbed.

No stop-thief cry should avail those who escaped with the loot and now join in the chase of the innocent.

Smokeless and Dustless

The great electrician, Steinmetz, prophesies that the day is not far distant when cities will be heated as well as lighted by the magical current.

We hope he is right and that our municipalities will be both smokeless and dustless.

Observers of the great strides of electrical utilities who realize that almost every home now has its electric flat iron, its vacuum sweeper, its washing machine, electric toaster and other electrical conveniences which simplify housekeeping, unhesitatingly agree with Steinmetz.

This prophet proclaims that in the future the manufacturing of the city will be entirely done by electricity furnished from great central plants which will also feed the homes with light, heat and power. Smoke and dust will be reduced to the minimum.

If progress in this direction is made as rapidly as it has been in the past decade that welcome future will soon be here.

So far the use of electricity in the homes has only begun. Its possibilities there are as limitless as in the broader outside field.

But the latest wonder of electricity is raising beans. A seed store in New York is making this experiment and the store window garden is warmed by an electrical current which is doing nature's work.

POETRY FOR TODAY

TIRED

My mind's a-weary, let me rest,
Tell me sometime or little jest;
Long have I flogged my tired brain
To tasks of learning wit and gain;
Give my fagged faculties repose,
And they shall bloom afresh—who knows?

Grant me to lose for one short hour
Ambition, pride and dreams of power;
To laugh, to sport with foolish glee
And be what easiest is to me;
Long have I put these things away—
Give me a restful hour of play.

Give me for prison wall of stone
Some of God's open space to own;
Sunshine and songs of carol birds;
Mirth and light laughter; unweighed words—
Give me freedom anywhere,
So, for an hour, I lose my care.

TEN YEARS AGO

Herald News This Date 1911

The County Commissioners on Tuesday arrived at the conclusion that one of the oldest landmarks in Fayette county must go, and it is none other than the famous old wooden bridge over Rattlesnake creek a few miles west of this city on the Wilmington pike.

On the lower side of the bridge the commissioners found one of the two strings broken squarely in two, allowing the entire weight of the bridge on that side and half of the weight of any load that passed through the bridge to be carried by the one remaining "string."

This bridge was built in 1850 and has, therefore, served the continuous demands of the public for over 60 years.

THINGS TO DO IN THE WINTERTIME

SMOKE PRINTS OF LEAVES
By Ernest Thompson Seton.

(Copyright, 1920, by The Wheeler Syndicate, Inc.)

Smoke Print of Fern. 27c

Collect one or two leaves that have strongly marked ribs; elm and raspberry are good ones. Take a piece of paper that is strong, but rather soft, and about as big as this page. Grease, or oil it all over with paint-oil, butter or lard. Then hold it grease side down in the smoke of a candle, close to the flame, moving it about quickly so the paper won't burn, until it is everywhere black with soot.

Lay the paper flat on a table, soot side up, on a piece of blotting paper. Lay the leaf on this, then over that a sheet of paper. Press this down over all the leaf. Lift the leaf and lay it on a piece of soft, white paper; press it down as before, with a paper over it, on which you rub with one hand while the other keeps it from slipping; lift the leaf, and on the lower paper you will find a beautiful line drawing of the leaf, done in black ink, which once it is dry, will never rub out or fade away.

At one corner write down the date and the name of the leaf.

QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel. Dr. Edwards, a practicing physician for 17 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers. Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative.

No griping is the "keynote" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them to unnatural action. If you have a "dark brown mouth"—bad breath—a dull, tired feeling—sick headache—torpid liver—constipation, you'll find quick, sure and pleasant results from one or two of Dr. Edwards' Olive Tablets at bedtime.

Thousands take them every night just to keep right. Try them. 15c and 30c.

A fast day by Ohio club women in behalf of starving children in Europe, such as being observed by women's clubs of New York City today, was suggested by Mrs. W. H. Sharp, Columbus, president of the Ohio Federation of Women's Clubs this morning.

No date for the projected observance was set, and carrying out of the plan will be left to local organizations. "It is to be hoped that thousands

of Ohio households will entertain as 'invisible guests' as many of these unfortunate children as they can afford to make contributions for at \$10 each," said Mrs. Sharp.

Today is marked in the homes of 50,000 New York club women by omission of the principal meal or by substitution for it of a meal of rice and bread, as served once a day to the 3,500,000 half-starved European children who are fed by the 17,000 feeding stations under Herbert Hoover's direction in Central and Eastern Europe.

The women are carrying out this plan in support of Mr. Hoover's effort to collect the money which will make possible the continuance of the European feeding stations until next harvest.

Mrs. Sharp is organizing the women's clubs of Ohio to back the movement in this state, which is charged with responsibility for saving the lives of 200,000 children by contributing \$2,000,000 to the \$33,000,000 national fund.

The Paul H. Hughey Post, American Legion, starts a series of Assembly dances Thursday night at the memorial Hall, following classes in dancing instructed by Percé Pearce.

Referring to her participation in arrangements for the Leonard-Mitchell boxing match held recently in New York, Miss Morgan declared that approximately \$90,000 would be received by the committee from the proceeds.

Miss Morgan's fearlessness and enthusiasm were cause for special comment from the French Government as well as the bestowal of the Croix de Guerre in recognition of her services.

According to her private secretary Miss Daisy Rogers, Miss Morgan is a tireless worker in behalf of the countless interests often being engaged in its activities from an early hour in the morning until 9 o'clock at night.

WILL REDECORATE THE COURT HOUSE

The first step toward redecorating the interior of the court house—a thing which is badly needed—was taken by the county commissioners when they contracted with Sheets and Purcell to finish one room in the court house.

After one room is completed it is expected that the remainder of the job will be awarded, providing the work is satisfactory.

Many of the rooms in the court house have become blackened and the paint has long since peeled off until the walls are most unsightly.

INTEREST STIRS WHEN THIS CITY JOINS CIRCUIT

Tentative Dates For Meet Here For Week of May Thirtieth.

Local Horsemen Confident That Meet Here Will Prove Big Event.

Announcement that this city had been included in the Central Ohio Valley short ship harness racing circuit has caused no little interest among horsemen and turf fans in Fayette county.

It was stated Tuesday by Captain Charles Allen, who has been informed of the organization, that a three or four days meet will be given here providing suitable plans can be arranged and enough local people get behind the movement to insure its success.

However, it was stated Tuesday, plans have been underway for several weeks and the recent visit of a representative of the Ohio Valley Circuit practically assured local turf men that a meet will take place.

The announcement of the proposed meet here means, it is declared by local harness horsemen, the visit to this city of horsemen from different parts of the country, the bringing of great numbers of horses to the local track, and the bringing of much outside money.

Dates announced for the meet show that Washington Court House has been given the week of May 30. Tentative dates allotted are: Grove City, week of May 23; Washington C. H., May 30; Xenia, June 6; Kenton, June 13; Powell, June 20; Mt. Vernon, June 27; Coshocton, July 4; Newark, July 11; Zanesville, July 18; Dover, July 25; Grove City, August 2.

Another meeting of the Ohio Valley Circuit is announced for January 31st Newark at which a constitution will be adopted and some agreement reached as to uniform purses and early closing events.

HOBOS ACTIVE CALL AN OFFICER

Numerous hoboes have been reported within the city during the past two weeks, and some of these beggars boldly enter business places in the up-town district and ask for money.

One of these fellows was making the rounds Monday armed with a discharge from the army, which he boldly flaunted, regardless of the fact that he was in apparently good health and was not suffering for want of something to eat.

All citizens bothered by such fellows can obtain relief by calling an officer.

AN OPEN LETTER TO WOMEN

Mrs. Little Tells How She Suffered and How Finally Cured

Philadelphia, Pa.—"I was not able to do my housework and had to lie down most of the time and felt bad in my left side. My monthly periods were irregular, sometimes five or seven months apart and when they did appear would last for two weeks and were very painful. I was sick for about a year and a half and doctored but without any improvement.

A neighbor recommended Lydia E. Pinkham's Vegetable Compound to me, and the second day after I started taking it I began to feel better and I kept on taking it for seven months. Now I keep house and perform all my household duties. You can use these facts as you please and I will recommend Vegetable Compound to everyone who suffers as I did." — Mrs. J. S. LITTLE, 3455 Livingston St., Philadelphia, Pa.

How much harder the daily tasks of a woman become when she suffers from such distressing symptoms and weakness as did Mrs. Little. No woman should allow herself to get into such a condition because such troubles may be speedily overcome by Lydia E. Pinkham's Vegetable Compound, which for more than forty years has been restoring American women to health.

PICK UP MUSIC FROM THE AIR

There's music in the very air, and more than one of the wireless plants in this city have been picking up the music and enjoying real concerts over their wireless telegraph outfits.

About nine o'clock Monday night the wireless plant of Justin Evans, son of John Evans, South Main street, picked up phonographic music sent by a station at Hamilton, Ohio and the sender took occasion to explain his location and arrangements before each selection.

Concerts about the same time every night this week have been promised by the Hamiltonian, and it is expected the young wireless operator will have plenty of company to enjoy the concert picked from space.

PREACHING MISSION OPENS TONIGHT

A week of prayer and preaching mission opens this evening at 7:30 at St. Andrews Episcopal Church. The subject of the sermon this evening will be "Paul Before Felix or the Covenant Season."

HOGS ARE STOLEN IN THIS COUNTY

Farmers in western Jefferson township have been missing choice hogs recently, and are beginning to keep a closer watch on their live stock.

Jacob Flax had at least one hog stolen and James Miller, of the same community has missed an animal or two. The entire neighborhood is on the lookout for evidence that might lead to the arrest of the thieves.

Does Life Insurance Carry You?

THERE USED TO BE AN OLD QUESTION ASKED OF MEN BY THEIR FELLOWS AND BY LIFE INSURANCE SOLICITORS—"DO YOU CARRY LIFE INSURANCE?"

NOBODY CARRIES LIFE INSURANCE; THE THING IS AN IMPOSSIBILITY, FOR LIFE INSURANCE WON'T BE IN THE POSITION OF BEING CARRIED. IT IS NOT A BURDEN. IT IS AN AUTOMOTIVE VEHICLE THAT CARRIES EVERYBODY WHO INVESTS IN IT.

To begin with, there is something that every decent man feels with regard to the future of wife and children that is actually a load on his mind and on his heart. This load, life insurance assumes and carries in such a way as to absolutely relieve the man of his burden. It starts him out every day care free in reference to future obligations in case of his sudden death or serious illness.

Life insurance carries you into a first-rate habit which is hard, otherwise to form—a habit of systematic saving. A life insurance policy carries you to the door of the bank and gives you a welcome when the President when you ask him for a business loan.

Life insurance carries you into the position of a sizable estate just as soon as the first premium is paid. This is a good big argument in favor of the man who invests.

Again, in almost every man's life there comes a time when he actually needs to be picked up and carried for a while. Something serious has happened, a big doctor's bill or

an unfortunate business experience, or something of the sort, has bowled him over. At that time a life insurance policy comes along and actually puts him on his feet and starts him all over again. This is due to the loan value which life insurance policies always have after the first two years of life.

Again, although a life insurance policy hasn't as many lives as a cat, it has been frequently found to be alive when the man who had previously invested in it thought it had died for lack of premium payments. In the modern life insurance policy there is a provision which starts a reserve fund working after the premium fund has failed and if a man dies within a certain length of time his heirs will discover that that policy, although apparently surrendered, has full vitality,—that is to say, is payable in full to his beneficiaries.

There are many other instances in which it can be easily shown that a life insurance policy carries a man who invests in it.

Let us ask you very seriously

Have you given life insurance the opportunity to take you along the road of success in life, releasing your energies, your time, your thought for work and for enjoyment?

If life insurance does not carry you, won't you hail the first life insurance salesman you can think of just as you would call a taxi in order to be carried from one place to

another—won't you call this man up and tell him that you want a quick trip from uncertainty to insurance; that you want to have a big load taken off your mind concerning the future of your wife and children, and in short that you want to have life insurance carry you and your family safely, smoothly, to the place of financial security that will be at once economical and will give you a sense of welfare quite inexpressible?

Obey That Impulse—This is Thrift Week.

800 DOG OWNERS FACING ACTION

Deputy Sheriff Who Will Catch Dogs, Issues a Warning

Nearly 800 owners of dogs in Fayette county are facing trouble because of failure to obtain license for their dogs, and deputy sheriff, C. P. Perry, is now at work with orders to take all unlicensed dogs and to file charges against those who have not obtained licenses in accordance with the provisions of the dog license law.

The increasing difficulty of obtaining observance of the law has been responsible for the determination on the part of the officials this year to enforce the law more rigidly than heretofore, and it is intention to file charges against violators.

In the meanwhile the demand for licenses has suddenly doubled in the county auditor's office as persons realize that the dog catcher is now on the job and is working not for a salary but for \$1.50 per head for every dog taken.

The Deputy feels that ample time has been given to everyone to obtain their dog license, and intends to proceed with his work as rapidly as possible.

FUND HAS PASSED \$4,500 MARK IN FAYETTE COUNTY
Solicitors Working on Theory That Every \$10 Saves Life.

Announcement was made Monday morning that the fund for relief of war orphans in Europe had reached \$4,500 in Fayette county.

This includes the proceeds from the Dutch Treat Club "army stew" dinner, subscriptions through the M. E. Church, the Presbyterian Church, the Presbyterian Sunday School, individual donations, and others which are coming in each day.

The majority of the donations for the Orphan Relief Fund have come from this city alone and is was stated Monday by a member of the Executive Committee in charge of the drive that the townships will be asked to assist in the work.

Fayette county's goal is set at approximately \$12,000. "Every Ten Dollar gift saves a life," is the principle in which the collection fund is being raised.

Protestant, Catholic, and Jewish organizations, together with the Red Cross, and the American Relief Administration, have united their programs in Europe for this winter under Herbert Hoover's direction.

The money raised in this county will be a part of the \$2,000,000 which is being counted upon from Ohio and which will provide for 200,000 children.

SPORTS HOLD CENTER STAGE
Basket Ball, Wrestling and Bowling
Enjoying Place in Limelight and Hold Attention of Fans

Sport events will have a big week in this city with no less than three major attractions scheduled.

On Wednesday evening the Y. M. C. A. basket ball team clashes with the Jamestown Barons headed by "Doc" Ogan. The triangles are getting in the best of shape for the game with the idea of breaking their losing streak of two straight, one to the Pure Oil team and the second to the Springfield White Stars. Ogan, captain of the Barons, is just as confident that the losing streak of the locals will extend another game.

Friday evening sees the Washington High School basket ball team in its first game at home this season. Hillsboro High will be the opponent. Washington, like the Triangles, has lost two games and will be attempting to win in the third contest.

At the same time Friday evening the wrestling fans will be entertained at Memorial Hall in a bout held under the auspices of the American Legion in which George Kotsanos, the Greek champion, meets Bob Monagoff, an Armenian.

Bowling is occupying attention of the sport fans all week. The teams have not been more evenly matched

any week during the season. The No. Stars meet the Y. M. C. A. team Tuesday evening; Lumbermen roll Orfan bowlers. Wednesday evening, in Thursday's game the Daylight teams bowls the Bankers; and on Friday evening the two teams at the top of the standing, the Upholsterers and the Newspapers complete the week's program.

CHURCHES TO MAKE SURVEY OF CITY

Next Sunday afternoon representatives of various churches will visit each home in the city in an effort to secure information which may be used to enlarge the effectiveness of the Sunday School work of the city.

The questions asked will cover the ages of the children, the church or Sunday School preferred, the number of times in attendance at Sunday School during 1920, the number of shut-ins, etc.

It is expected that at least 120 persons will assist in making this survey. After the cards are filled out they will be given to the various churches indicated and plans will be formulated by which it is hoped large numbers may be induced to become regular attendants at the Sunday Schools of the city.

The cooperation of the homes is earnestly requested in order that the survey may be quickly and accurately completed.

What the Filtering Machine Will Do

Pasteurization will eliminate the bacteria present in ALL fresh milk, but does not remove the sediment present. There is where the *Filterer* takes up its task. After the milk is made perfectly pure the *Filterer* removes all sediment of a foreign nature. Through cotton discs, which are used but once, the milk passes after pasteurization before being cooled and bottled. The last word in sanitation and purification. Only Clover Leaf Milk is so cared for.

We Make Old Furniture New

by upholstering it in leather, velour, or any other desired material. We do more, however, than just re-cover the furniture. We practically rebuild the chairs, davenport or other article, making them to all intents and purposes actually new. We shall be glad to call and give you an estimate.
